Objective

To secure an opportunity to utilize my training and gain new skills in a corporate environment while making positive contribution to the achievement of the company goals. I am a result-driven and innovative engineer with knowledge in electrical installation, network configuration and network security . I am seeking to use my problem solving skills to achieve the organization goals, provide quality service and grow my skills. I have knowledge in Wireshark and also very proficient in Microsoft Suite applications as the IEEE Multimedia University Secretary.

Personal Details

Nationality: Kenyan
